## RIBBON WRAP

# ARUBA RIBBON WRAP

**Note!** This piece is worked in garter and lace and is fully reversible when knitted, which makes for many ways to wear it! If you watch your garter ridges, you will see two ridges form on each side between the lacey sections, this will help you remember where you are in your pattern. Watch the ridges form on each side and with each repeat and you will have the pattern memorized quickly!  
Enjoy.
