# Cash Fine 3Ply Scarf

# Cash Fine 3Ply Scarf

*This pattern uses three strands of Cash Fine joined together. You can combine three similar shades of a color or three similar values, or any three color combination you'd like. A high contrast combination will make a busier pattern, while similar colors will show your stitch pattern more. You could even try two balls of one color and one ball of another, or three the same color if you choose.*

*Be mindful to catch all the ply as you knit, and work each stitch with all three strands. Working from the center of a center pull ball will allow the strands to twist a bit around each other and make this easier!*
